Localhost Accessibility Scan Report

Automated WCAG A/AA scan of the locally served homepage

Measure	Result
Page scanned	http://localhost:8081/
Confirmed violations	0
Passed rules	24
Not applicable	36
Manual-review items	0

Scan details

Date and time: August 27, 2026, 10:38 AM PDT

Engine: axe-core 4.13.0

Browser: Headless Chrome 148.0.0.0 on Windows

Standards tested: WCAG 2.0 A/AA, WCAG 2.1 A/AA, and WCAG 2.2 A/AA

What passed

The scan passed rules covering ARIA validity and roles, the skip link, document title, page language, image alternative text, frame titles, link names, lists, viewport zoom, nested interactive controls, role-image labels, keyboard access to scrollable regions, and target size.

Contrast result

Contrast is now automatically verifiable: the final scan reports zero color-contrast violations and zero incomplete checks.

Resolved before final scan

The customer-review text area was made keyboard-focusable because it can scroll. The final scan then returned zero confirmed violations.

Scope

This is an automated scan of one locally served page. It is evidence of automated checks only and is not a legal compliance certification.
